

WASTEWATER TREATMENT MAINTENANCE OPERATORS

Whitlock Packaging Corporation, a juice manufacturing company, has immediate openings for Wastewater Treatment Maintenance Operators. These positions require individuals to be physically able to endure heavy lifting as required. Applicants must be able to work indoors and outdoors and may be exposed to unpleasant odors. Applicants must have knowledge of wastewater treatment, as well as maintenance experience with pumps, valves, and instrumentation. Must have basic computer skills and electrical knowledge. A Wastewater State Certified License is a plus. Must be willing to work with a team, have shift flexibility and be able to work overtime and weekends as required. Excellent pay and employee benefits. For employment consideration pick up an employment application at the Fort Gibson facility, email resume to webbp@whitlockpkg.com, or mail resume and salary history to:
